

Network Administrator/IT Consultant

InterDyn BMI is expanding its service offering provided by their Houston, TX office and are now offering Network Consulting Services to their clients. This provides great opportunity for experienced IT Consultants to join this well-established Microsoft Gold Partner.

As an IT Consultant at InterDyn BMI, you will work with several teams to promote and implement a full range of Networking Solutions and related products, including on-premise and Cloud solutions. You will also act as Network Administrator for clients, providing ongoing maintenance and support through our Managed Services program. You may also collaborate with other InterDyn BMI teams responsible for promoting and implementing Microsoft Business Solutions for the same client. The total solution proposed may include a variety of Microsoft products including: Dynamics GP, AX, CRM, RMS and POS; SharePoint; Office; Exchange; integrations; and custom development.

Candidates should have a minimum three years experience successfully installing, upgrading, maintaining, and troubleshooting LAN/WAN environments, **with a primary focus on firewalls, security and Exchange**. We are seeking a professional problem solver with the ability to communicate effectively with all levels of an organization. Good documentation skills and the ability to learn new technology quickly are essential. Prior consulting experience is a plus. Network Administrators with strong customer service skills are encouraged to apply.

Our ideal candidate would be Microsoft Certified Consultant with experience successfully planning, implementing, and supporting the following technologies:

Windows Server

- Active Directory
- Terminal Services
- Windows SharePoint Services (WSS)
- Internet Information Server

Small Business Server

Microsoft Exchange

Windows Desktop OS

Microsoft Business Online Productivity Suite (BPOS), Office 365

Microsoft Data Protection Manager

Network Device Experience: Firewalls, Switches, Routers, and Tape Libraries

Cisco Firewalls

Laptop/ Desktop/Server Hardware

Symantec and Windows backup devices

Disaster Recovery Planning and Execution

TCP/IP, DNS, & VPN

Wireless and mobility technologies

Virtualization

This position will work out of our Houston, TX office and requires occasional travel outside of the metro area.

If you enjoy using emerging technologies to solve business challenges and improve efficiencies, this is the job for you. InterDyn BMI provides a competitive compensation package, flexible work environment, and a culture which encourages a balanced life-style. Compensation is proportionate to breadth and depth of product experience and skills.

Please email, fax or mail your resume to: careers2011@interdynbmi.com; fax: (651) 639-0687, InterDyn BMI, Attn: Recruiter, 2277 West Highway 36, Suite 300, Roseville, MN 55113

InterDyn BMI has been a leader in offering financial and business management solutions for small to mid-size organizations for more than 25 years.
