

Microsoft Dynamics NAV Functional Consultant – Open to Location

InterDyn BMI, A Columbus Company has been effectively combining traditional Microsoft products with Microsoft Business Solutions software to provide flexible, innovative and fully-integrated solutions since 1985, InterDyn BMI helps small to large organizations manage installations and software applications in a timely and cost-effective manner. Our world-class consulting team includes industry specialists that have experience implementing vertical solutions as well as many ongoing services to meet our clients' specific requirements.

As a **Microsoft Dynamics NAV Functional Consultant**, you will work with clients and teammates to plan and implement a full range of solutions revolving around Microsoft Dynamics NAV. The total solution proposed may include a variety of Microsoft products including SQL Server, Dynamics CRM, SharePoint, Office, and Exchange, as well as Scribe integrations and custom development.

This position has the flexibility to work remotely.

Responsibilities of this Microsoft Dynamics NAV Functional Consultant include:

- Leading and/or participating in discovery analysis meetings with the client to understand current business processes that need to be incorporated into Dynamics NAV.
- Conducting GAP analysis' to determine difference between application and business processes.
- Providing a demonstration of software and solution to prospects or at customer events.
- Gathering system and software requirements.
- Working with teammates to design and architect proposed solution.
- Creating documentation to define workflow and requirements.
- Configuring application as appropriate to conform to business process definition, including: application customization, workflow process editing, and report writing.
- Identifying creative solutions for processes that aren't fully accomplished by standard Dynamics NAV processing.
- Working with the client to understand legacy data components and identifying and documenting the appropriate location for such data in Dynamics NAV.
- Designing, architecting and implementing integrations and migrations between Dynamics NAV and a variety of products.
- Developing end user training documentation.
- Training users in a hands-on methodology.
- Providing on-going support to end users, assisting with trouble shooting or additional training via email, phone or site visits.
- Maintaining and expanding client relationships through delivery of high quality services.
- Designing custom reports, dashboards, SQL scripts or triggers.
- Representing InterDyn BMI at promotional and educational events.

This position has the flexibility to work remotely.

Desired Skills and Experience

- Strong proficiency within at least one of the following areas: Finance, Manufacturing, Job Costing, Warehousing (WMS) and/or EDI.

- 3-5+ years proven track record of successfully implementing Microsoft Dynamics NAV in one or more of the following roles: Solutions Consultant, Project Management, Implementation Consultant.
- NAV Certification.
- 4+ full-cycle ERP implementations within Functional Consultant role.
- Prior consulting, business analyst, implementation, or product support experience required, specifically relating to Dynamics NAV.
- Education in Information Technologies and the ability to learn new technology quickly.
- Ability to manage critical relationships with clients.
- Ability to work as a member of a team, communicate, delegate and follow-up effectively to all team members.
- Ability to adhere to and enhance Microsoft NAV's Sure Step Methodology.
- Strong problem solving and conflict resolution skills.
- Excellent time management/organization skills with attention to detail and the ability to handle multiple tasks simultaneously.
- Knowledge of other accounting or ERP solutions would be beneficial.
- Payroll skillset, Report Writing, and Financial Management experience are held in high regard.
- Proven track record of successfully implementing Microsoft Dynamics NAV in one or more of the following roles: Solutions Consultant, Project Management, Implementation Consultant.

This position has the flexibility to work remotely.
