

## ERP4Health®

### ABOUT SHEA FAMILY

Shea Family serves a group of affiliates that constitute the premier providers in post-acute care in San Diego. Shea Family and their affiliates will continue to invest in the technological changes that the industry demands.

### BUSINESS SITUATION

Shea Family wanted to improve productivity and decision making from the transactions and reporting being done. The finance department had three important areas they needed to improve:

1. Reduce the amount of time to process accounting data and perform month end closing.
2. Reduce time to route, approve and retrieve documents, such as vendor invoices.
3. Provide an enterprise reporting and budgeting tool for finance and management to extract, consolidate, analyze and to make better and quicker decisions.

### THE SOLUTION: MICROSOFT DYNAMICS GP

To solve these critical business issues Shea Family chose the ERP4Health® suite of financial management, document imaging and business intelligence tools from InterDyn BMI.

### PROVEN RESULTS

- Improved productivity of accounting & finance departments
- Improved enterprise-wide decision making
- Improved enterprise document management productivity

“Shea Family chose ERP4Health® to provide us with the most flexibility in supporting our multiple healthcare companies and moving towards an optimized paperless documentation process. The BI360 tool will allow us to continually enhance our KPI's as our business evolves. The entire suite was the most cost effective bundle of the products we identified.”

Steve Arndt, CIO, Shea Family
